- Garment storage cabinet

Space is at a premium in cleanrooms where every square metre is expensive. As a result there are no standard solutions and no standard sizes.

The stainless steel cleanroom furniture, which is electrically conductive, consists of vertical supports with solid faces and perforated horizontal tops to reduce disturbance of the vertically directed laminar flow. Moving and cleaning the furniture is also facilitated.

Cleanroom Furniture:

1. Cleanroom Tables & Benches

Cleanroom work tables feature a variety of frames materials and work surfaces that offer easy-to-wipe down surfaces, and chemical and microbe resistance

2. Laminar Flow Benches

These modular laminar flow cleanroom benches achieve Class 100/ISO 5 adherence for use in your laboratory, testing facility, or manufacturing facility.

3. Chairs & Stools

Our cleanroom chairs feature vinyl, or self-skinning polyurethane upholstery, and easy to wipe down components made specifically for critical environments.

Cabinets & Shelving

Our selection of cleanroom cabinets includes options for general storage, garments, and WIP materials.

Lockers

Stainless steel lockers with optional slope tops are ideal for personal storage in cleanrooms and gowning rooms.

Carts & Transport

Cleanroom carts are available with open wire or solid stainless steel shelves and can be outfitted with auto cleavable casters.

Foot Rests

These stainless steel footrests are height adjustable. Perforated, electro polished, and tilting models are available.

Cleanroom Sinks

Our cleanroom sinks are can be built to your exact specifications. Drawers or shelves can easily be added at any time.

Gowning Room Furniture:

Dispensers

Our acrylic, PVC, polypropylene and stainless steel dispensers are great for dispensing apparel, gloves, bouffant caps, shoe covers and other PPE supplies.

Gowning Benches

Our gowning benches are available with a variety of surfaces for easy cleaning and proper laminar flow, with floor-mount or free-standing options.

Mirrors

Check your gowning compliance with our cleanroom mirrors. Available in flush or framed wall-mount, or double-sided free-standing models.

Cabinets & Shelving

Our selection of cleanroom cabinets includes options for general storage, garments, and WIP materials.

Garment Racks

Our stainless steel garment racks provide efficient and secure storage for cleanroom garments. Available in wall-mounted or free-standing models.

Bootie Racks

Our cleanroom shoe and bootie racks offer ventilated storage for proper laminar flow and are available in chrome or electro polished stainless steel.

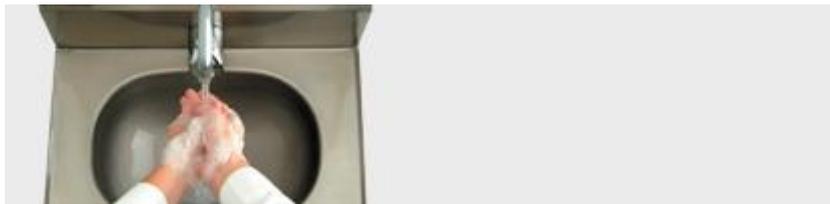

Lockers

These heavy-gauge stainless steel lockers can be configured with a sloped top, making them ideal for cleanrooms and gowning rooms.

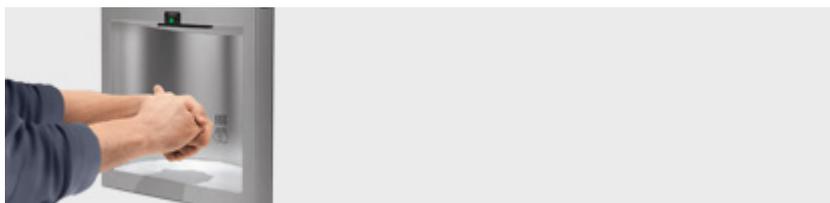

Hand Washing Sinks

We offer several different styles of stainless steel hand washing sinks for cleanrooms and gowning rooms, including models with touch-free operation.

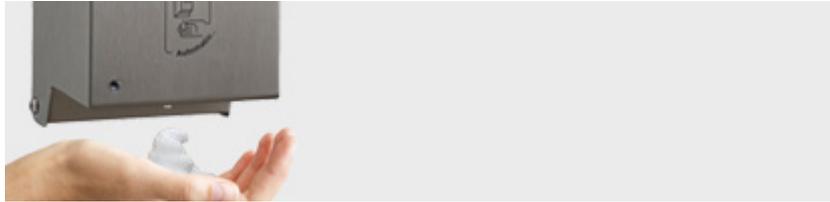

Hand Dryers

Hand and glove cleaning stations feature ULPA-filtered dryers that provide micro-filtered drying for ISO 4 certified cleanroom operation.

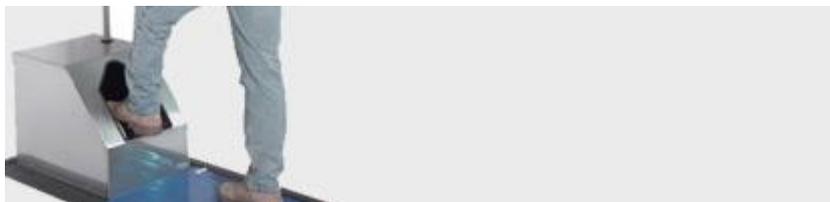

Automatic Soap Dispensers

Automatic, touch-free liquid dispensers minimize cross contamination, and can be used with hand lotion, sanitizer, or soap.

Shoe Brush Machines

Cleanroom shoe brush machines remove particulate from the soles of shoes and are essential for the preservation of your critical environment.

Shoe Cover Dispensers

Our automatic, hands-free shoe cover dispensers and removers save time and eliminate cross-contamination.

Step Ladders

These step ladders are made of electro polished stainless steel and feature moon cup casters that retract when weight is applied.

Waste Receptacles

Our cleanroom waste receptacles are available in electro polished stainless steel, epoxy-coated steel, or polypropylene, and feature hands-free operation.

Garment storage cabinet

These are designed to store and organize clothing items such as garments, hairnets, gloves etc. The overall sizes can be adjusted to requirement with customizable shelving available. The cabinet also features adjustable legs and skirting can be provided. The cabinets can be easily cleaned with minimal crevices throughout the design and are virtually maintenance free.
